

compliance agreement. A person operating under a compliance agreement may issue a certificate for the interstate movement of a regulated article if an inspector has determined that the regulated article is otherwise eligible for a certificate in accordance with paragraph (a) of this section. A person operating under a compliance agreement may issue a limited permit for interstate movement of a regulated article when an inspector has determined that the regulated article is eligible for a limited permit in accordance with paragraph (b) of this section.

(e) Any certificate or limited permit that has been issued may be withdrawn by an inspector orally, or in writing, if he or she determines that the holder of the certificate or limited permit has not complied with all conditions under this subpart for the use of the certificate or limited permit. If the withdrawal is oral, the withdrawal and the reasons for the withdrawal shall be confirmed in writing as promptly as circumstances allow. Any person whose certificate or limited permit has been withdrawn may appeal the decision in writing to the Administrator within 10 days after receiving the written notification of the withdrawal. The appeal must state all of the facts and reasons upon which the person relies to show that the certificate or limited permit was wrongfully withdrawn. As promptly as circumstances allow, the Administrator will grant or deny the appeal, in writing, stating the reasons for the decision. A hearing will be held to resolve any conflict as to any material fact. Rules of practice concerning such a hearing will be adopted by the Administrator.

§ 301.50-6 Compliance agreements and cancellation.

(a) Any person engaged in growing, handling, or moving regulated articles may enter into a compliance agreement when an inspector determines

that the person understands this subpart.⁶

(b) Any compliance agreement may be canceled orally or in writing by an inspector whenever the inspector finds that the person who has entered into the compliance agreement has failed to comply with this subpart. If the cancellation is oral, the cancellation and the reasons for the cancellation shall be confirmed in writing as promptly as circumstances allow. Any person whose compliance agreement has been canceled may appeal the decision, in writing, within 10 days after receiving written notification of the cancellation. The appeal must state all of the facts and reasons upon which the person relies to show that the compliance agreement was wrongfully canceled. As promptly as circumstances allow, the Administrator will grant or deny the appeal, in writing, stating the reasons for the decision. A hearing will be held to resolve any conflict as to any material fact. Rules of practice concerning such a hearing will be adopted by the Administrator.

§ 301.50-8 Attachment and disposition of certificates and limited permits.

(a) A certificate or limited permit required for the interstate movement of a regulated article must be attached, at all times during the interstate movement, to the outside of the container containing the regulated article, or to the regulated article itself, if not in a container. The requirements of this section may also be met by attaching the certificate or limited permit to the consignee's copy of the waybill, provided the regulated article is sufficiently described on the certificate or limited permit and on the waybill to identify the regulated article.

(b) The certificate or limited permit for the interstate movement of a regulated article must be furnished by the carrier to the consignee at the destination of the regulated article.

§ 301.50-9 Costs and charges.

The services of the inspector during normal business hours (8 a.m. to 4:30 p.m., Monday through Friday, except holidays) will be furnished without cost. The user will be responsible for all costs and charges arising from inspection and other services provided outside of normal business hours.

§ 301.50-10 Treatments and management method.

(a) Regulated articles may be treated in accordance with part 305 of this chapter to neutralize the pine shoot beetle.

(b) *Management method for pine bark products.* The following procedures are authorized for use with pine bark products derived from white pine (*Pinus strobus*), Scotch pine (*P. sylvestris*), red pine (*P. resinosa*), and jack pine (*P. banksiana*) trees. Pine bark products will only be considered to have been

7 CFR Ch. III (1-1-14 Edition)

produced in accordance with this management method if the following procedures are followed:

(1) For pine bark products produced from trees felled during the period November 1 through March 31:

(i) The trees must be harvested at a height of 4 inches or more above the duff line; and

(ii) The trees must have been mechanically debarked with a ring debarker or a Rosser head debarker; and

(iii) For Scotch pine, red pine, and jack pine, the bark must either be ground into pieces of 1 inch or less in diameter or composted in accordance with the procedure in paragraph (d)(3) of this section.

(2) For pine bark products produced from trees felled during the period April 1 through June 30:

(i) The trees must have been mechanically debarked with a ring debarker or a Rosser head debarker; and

(ii) The bark must either be ground into pieces of 1 inch or less in size or composted in accordance with the procedure in paragraph (d)(3) of this section.

(3) Composting for pine bark products for the management method in this paragraph (d) must be performed as follows:

(i) The pile of pine bark to be composted must be at least 200 cubic yards in size; and

(ii) The compost pile must remain undisturbed until the interior temperature of the pile reaches 120 °F (49 °C) and remains at or over that temperature for 4 consecutive days; and

(iii) After the 4-day period is completed, the outer layer of the compost pile must be removed to a depth of 3 feet; and

(iv) A second compost pile must be started using the cover material previously removed as a core. Core material must be removed from the first pile and used to cover the second compost pile to a depth of 3 feet; and

(v) The second compost pile must remain undisturbed until the interior temperature of the pile reaches 120 °F (49 °C) and remains at or over that temperature for 4 consecutive days. After
